

## Client Project Case Study:

<b>Title of Project:</b>	Traffic Management and Landscaping Works at John Macintyre Centre at Pollock Halls
<b>Thomson Bethune's Role:</b>	Project Management, Quantity Surveying and CDM Co-ordinator Services
<b>Client Sector:</b>	Public section – higher education
<b>Client:</b>	The University of Edinburgh
<b>Project Cost:</b>	£225K – subsequently extended by a further £150K carried out under a separate contract.
<b>Location:</b>	Edinburgh, Scotland
<b>Date:</b>	March 2009 to September 2009

<b>Project Scope:</b>	
<b>Background to the project:</b>	The project involved the creation of an essentially pedestrian area within Pollock Halls including rising bollards, special site lighting and special surfacing materials applied to existing roadways
<b>The value Thomson Bethune added to this project:</b>	The close control applied through the involvement in these three key consultancy services enabled the project to be delivered on time and within the budget constraints of the client. We were closely involved with the management of the contract at times on a daily basis.  The project was delivered to the required specification, on time and within budget.
